[Conference Papers, NASA & US Government Reports](#)

### 1. REFEREED PAPERS

#### Journals

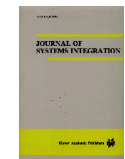

1. [Design and Composition of Cooperative Teams in a Concurrent Engineering Organization](#), [Journal of Computational and Mathematical Organization Theory](#). [Kluwer Academic Publisher](#), CMOT 111-99, Accepted, Volume 7, Issue 4, in Press, 2002., pp.
2. [Building Blocks of a Decision-based Integrated Product Development and System Realization Process](#), [Systems Engineering Journal](#), Volume 5, No.2., [International Council on Systems Engineering \(INCOSE\)](#), ISSN: 1098-1241, Published by [John Wiley & Sons, Inc.](#), [Wiley Interscience](#), SE-001006, Volume 5, Number 2, 2002., pp. 123-144.
3. [Towards Life Cycle Measures and Metrics for Concurrent Product Development](#), [International J of Computer Applications in Technology \(IJCAT\)](#), [Inderscience Enterprises Limited](#), ISSN 0952-8091, Vol. 15, Nos. 1/2/3, pp. 1-8, 2002.
4. [Towards balancing multiple competitiveness measures for improving business performance in manufacturing](#), [Int. J. Manufacturing Technology and Management](#), [Inderscience Enterprises Limited](#), ISSN 1368-2148, IJMTM, Vol. 3; No. 6, 2001, pp. 550-569.
5. [Total Value Management -- A Knowledge Management Concept for Integrating TQM into Concurrent Process and Product Development](#), [The Journal of Knowledge and Process Management](#), [John Wiley and Sons, Inc.](#), [Knowledge & Process Management.](#), ISSN 1092-4604, Volume 8, No 2, pp 105-122, 2001.
6. [Product Process and Methodology Systematization to Handle Structural and Computational Complexity in Product Realization](#), [Journal of Systems Research and Behavioral Science](#), [John Wiley & Sons, Inc.](#) Publication, Vol. 18, No. 6, 2001. pp. 523-543.
7. [What Management Style is considered Best for a Team-based Organization and why?](#), [International Journal of Value-based Management](#), Netherlands: [Kluwer Academic Publishers](#). (ISSN 0895-8815), Vol. 14, No. 1, 2001, pp. 59-77.

8. [Languages for Knowledge Capture and their Use in Creation of Smart Models, A Chapter of the Book - Industrial Knowledge management - A Micro Level Approach.](#) Editor: Rajkumar Roy, London: Springer-Verlag, 2000, ISBN 1-85233-339-1, pp. 525-548, 2001.
9. [Survey of life-cycle Measures and Metrics for Concurrent Product and Process Design,](#) Artificial Intelligence for Engineering Design, Analysis and Manufacturing, AIEDAM (ISSN: 0890-0604), Cambridge University Press, Vol. 14, pp. 163-176, 2000.
10. [Concurrent Engineering and Work-group Computing,](#) Chapter of a book on Encyclopedia of Microcomputers, Volume 25, Supplement 4(w/ Subra Ganesan), New York, NY: Marcel Dekker Inc. Executive Editors: A Kent and J.G. Williams, 6/30/2000, pp. 73-95. Print ISBN: 0-8247-2723-1
11. [Converting Computer Integrated Manufacturing \(CIM\) into an Intelligent Information System \(IIS\) by combining CIM with Concurrent Engineering \(CE\) and Knowledge Management \(KM\),](#) Accepted for publication in Industrial Management and Data Systems Journal, England, UK: MCB University Press, Volume 100, No. 7, September 2000, pp. 301-316.
12. [A Concurrent Function Deployment Technique for a Workgroup-based Engineering Design Process,](#) Journal of Engineering Design, London, UK: Taylor and Francis Ltd. (ISSN 0954-4828), Vol. 11, No. 2, June 2000, pp. 103-119.
13. [Towards Applying Principles of Concurrent Engineering to the Efficient Design and Development of Construction Facilities,](#) Special Issue on Concurrent Engineering in Construction, The International Journal of Computer-integrated Design and Construction (CIDAC), Edited by N Evbuomwan, Vol. 2, No. 1, February 2000, pp. 9-27.
14. [Integrating Concurrent Engineering Concepts in a Steelwork Construction Project,](#) C. J. Anumba, A. N. Baldwin, D. Bouchlaghem, B. Prasad, A. F. Cutting-Decelle, J. Dufau, M. Mommessin, Concurrent Engineering: Research and Applications, Volume 8, Number 3/September 2000 , Pages: 199 - 212 .
15. [On Management Styles for a Concurrent Engineering Organization,](#) The Journal of Enterprise Resource Management, Volume 1, No. 1, First Quarter, 2000, APICS: Australian Production and Inventory Control Society, pp. 88-84.

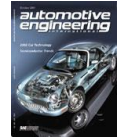

16. [Enabling Principles of Concurrency and Simultaneity in Concurrent Engineering, Artificial Intelligence for Engineering Design, Analysis and Manufacturing, AIEDAM](#) (ISSN: 0890-0604), Vol. 13, pp. 185-204, [Cambridge University Press](#), 1999.
17. [Hybrid Reengineering Strategies for Process improvement, Business Process Management Journal](#) (incorporating the Int. J. of Business Transformation developing re-engineering towards integrated process management), [MCB University Press.](#), Volume 5, No. 2, 1999, pp. 178-197.
18. [System Integration Techniques of Sharing and Collaboration among Work-groups, Computers and Processes](#), [Journal of Systems Integration \(JOSI\)](#) (ISSN: 0925-4676), The Netherlands: [Kluwer Academic Publishers](#), [Volume 9, No. 2, August 1999](#), pp. 115-140.
19. [A Model for Optimizing Performance based on Reliability, life-cycle costs and other Measurements](#), [Journal of Production Planning and Control](#), [Taylor & Francis, London](#), Vol. 10, No. 3, 1999, pp. 286-300.
20. [A Systematic Approach of Virtual Enterprising Through Knowledge Management Techniques](#) , [Yuh-Min Chen, Chia-Ching Liao and Biren Prasad](#), [International Journal of Concurrent Engineering: Research & Applications](#), Volume 6, Number 3, September 1998, [Page 180- 225](#).
21. [A Concurrent Workflow Management Process for Integrated Product Development](#), (W/ [Fujun Wang and J. Deng](#)), [Journal of Engineering Design](#), [Taylor & Francis, London](#), [Vol. 9, No. 2, July/August 1998](#), pp. 121-136.
22. [Review of QFD and Related Deployment Techniques](#), [Journal of Manufacturing Systems](#) (ISSN: 0278-6125) Netherlands: [Elsevier Publishers](#), [Official J. of the Society of Manufacturing Engineers \(SME\)](#), [Dearborn, MI](#), Vol. 17, No. 3, [May/June 1998](#), pp. 221-234.
23. [Synthesis of Market Research Data through a Combined Effort of Quality Function Deployment \(QFD\), Value Engineering and Value Graph Techniques](#), [The Qualitative Market Research -- an International Journal \(ISSN 1352-2752\)](#), [England, UK: MCB University Press.](#), Vol. 1, No. 3, [October 1998](#), pp. 156-172.

24. How Tools and Techniques in Concurrent Engineering Contribute Toward Easing Cooperation, Creativity and Uncertainty, International Journal of Concurrent Engineering: Research & Applications, Volume 6, No. 1, March 1998, pp.2-4.
25. Towards an Integrated Framework for Building an Intelligent Information System, International Journal of Computer Integrated Manufacturing Systems, Taylor & Francis Publisher, ISSN 0951-192X,1998.
26. A Method of Measuring Total Value towards Designing Goods and Services, The TQM Magazine (The International Bi-Monthly for Total Quality Management), London: UK: MCB University Press (ISSN 0954-478X), Vol. 10, no. 4, 1998, pp. 258-275.
27. A TQM Template for Integrated Product and Process Improvements, Total Quality Management International Journal, Carfax Press, London, Taylor & Francis Group: Routledge NY: In Press, 1998.
28. Designing Products for Variety and How to Manage Complexity, The Journal of Product and Brand Management, MCB University Press., Volume 7, No. 3, 1998, pp. 208 – 222.
29. Decentralized Cooperation: A Distributed Approach to Team Design in a Concurrent Engineering Organization Team Performance Management Journal (ISSN: 1352-7592.), MCB University Press., Vol. 4, No. 4, 1998, pp. 138-165.
30. On Management Styles for a Concurrent Engineering Organization, International Journal of Concurrent Engineering: Research & Applications, Volume 5, No. 4, December 1997, pp. 296-300.
31. Material metrics for concurrent product and process design, International Journal of Materials and Product Technology, Volume 12, Nos. 1, 1997, Inderscience Enterprises Ltd., pp. 1-17.

32. Life-cycle Measures and Metrics for Gaining Manufacturing Operational Excellence, 1997 SAE Transactions: Volume on Journal of Materials and Manufacturing, SAE Paper 971753, ISSN 0096-736X, Warrendale, PA: SAE, 1997, pp. 1012-1020.
33. Analogy for a Concurrent Product Design, Development and Delivery (PD<sup>3</sup>) Process, International Journal of Concurrent Engineering: Research & Applications, Volume 5, No. 3, September 1997, pp. 198-202.
34. A unified Product and Process Data Model with Dependency Relations in Support of Concurrent Engineering, (with S.C. Chan and S.C. Shek), Advances in Concurrent Engineering (CE97), Proceedings of the Fourth ISPE International Conference on Concurrent Engineering: Research & Applications, Oakland University, Rochester, MI, August 20-22, 1997, pp. 133-140.
35. Concurrent Engineering as an Integrator for Managing Product Development/Delivery Process, International Journal of Materials and Product Technology, Volume 12, Nos. 4-6, 1997, Inderscience Enterprises Ltd., pp. 279-287.
36. Analysis of Pricing Strategies for New Product Introduction, Pricing Strategy and Practice: An International Journal, Vol. 5, No. 4, pp. 132-141, England, UK: MCB University Press, 1997.
37. Towards the Use of Knowledge-based Engineering System in a Concurrent Engineering Environment, (with J. Patel, S. Singhal and A. Vertiz), Advances in Concurrent Engineering (CE97), Proceedings of the Fourth ISPE International Conference on Concurrent Engineering: Research & Applications, Oakland University, Rochester, MI, August 20-22, 1997, pp. 379-388.
38. Towards life-cycle measures and metrics for concurrent product development, International Journal of Materials and Product Technology, Volume 12, Nos. 4-6, 1997, Inderscience Enterprises Ltd., pp. 288-297.
39. Towards a Computer-supported Cooperative Environment for Concurrent Engineering, (W/ Fujun Wang and J. Deng), International Journal of Concurrent Engineering: Research & Applications, Volume 5, No. 3, September 1997, pp. 233-252.

40. Sharing Responsibility with Suppliers in a Concurrent Engineering Organization, Industrial Management Magazine, Society for Engineering and Management Systems(SEMS). Institute of Industrial Engineers, Norcross, Georgia, July-August, Vol. 39, No. 4, pp. 5-6, 1997.

41. Re-engineering Life-Cycle Management of Products to Achieve Global Success in the Changing Marketplace, Industrial Management and Data Systems Journal, MCB University Press, 1997, Volume 97, No. 3, England, UK, pp. 90-98.

42. Concurrent Function Deployment -- An Emerging Alternative to QFD: Conceptual Framework, Advances in Concurrent Engineering Book, CE96, Edited by M. Sobolewski, M. Fox, Series Editor: B. Prasad, Proceedings of the Third ISPE Int'l Conference on Concurrent Engineering: Research & Applications, Toronto, Ontario, Canada, August 26-28, 1996, Lancaster, PA: Technomic Publishing, 1996, pp. 105-112.

43. Concurrent Engineering Wheels, RASSP Digest, Rapid Prototyping of Applications Specific Signal Processors, The Road to Enterprise Integration, Volume 3, 1st Quarter, SCRA, N. Charleston, SC, 1996, pp. 16-20.

44. Toward Definitions of a Concurrent Product Design, Development, and Delivery (PD<sup>3</sup>) System, International Journal of Concurrent Engineering: Research & Applications, Volume 4, No. 2, 1996, pp. 102-110.

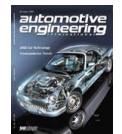

45. Towards A Functional Design of a Concurrent Information Modeling System, Computer Modeling and Simulation in Engineering- An International Journal, Volume 1, No. 1, February 1996, pp. 7-30.

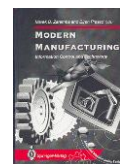

46. Is planning a Strategic Requirement for Concurrent Engineering Success?, International Journal of Concurrent Engineering: Research & Applications, Volume 3, No. 3, 1995, pp. 164-166.

47. Strategic Tool Design using Metal Forming Simulation Techniques, Proceedings of the Ninth Int'l Conference on Vehicle Structural Mechanics and CAE, April 4-6, 1995, Troy, Marriott, Troy, MI, (SAE P-290), pp. 397-402, (with T. Robertson and R. Duggirala), SAE Technical Series 951128.

48. Common Concurrent Engineering Pitfalls, in Handbook of Solid Modeling, Edited by Don E. LaCourse, John Wiley & Sons, Chapter 27: The Role of Solid Modeling in Concurrent Engineering, 1995, pp. 27.13-27.14.
49. On Influencing Agents of Concurrent Engineering, International Journal of Concurrent Engineering: Research & Applications, Volume 3, No. 2, June 1995, pp. 78-80.
50. A Structured Approach to Product and Process Optimization for Manufacturing and Service Industries, International Journal of Quality & Reliability Management, Special Issue on Quality Improvements in Manufacturing and Service Industries: Recent Trends and Perspectives, edited by A. Gunasekaran, J. Lyu and H.-J. Liu, Volume 12, Number 9 (October), 1995, pp. 123-138.
51. JIT Quality Metrics for Strategic Planning and Implementation, International J. of Operations & Production Management, Special Issue on Modeling and Analysis of Just-in-Time Manufacturing Systems, Guest Edited by S.K. Goyal and A. Gunasekaran, Volume 15, No. 9 (October), 1995, pp. 116-142.
52. Sequential versus Concurrent Engineering -- An Analogy?, International Journal of Concurrent Engineering: Research & Applications, Volume 3, No. 4, December 1995, pp. 250-256.
53. A Structured Methodology to Implement Judiciously the Right JIT tactics, Journal of Production Planning and Control, Taylor & Francis, London, Vol. 6, No. 6, 1995, pp. 564-577.
54. Modern Manufacturing, Chapter 1 In Modern Manufacturing: Information Control & Technology book, edited by M. Zaremba and B. Prasad, Springer Verlag, London, 1994, pp. 1-15.
55. A flowchart-based Methodology for Process Improvement, in Quality Concepts '93 World Class Manufacturing Book, Engineering Society of Detroit, 1993, pp. 53-74. (with Neal Strand)
56. Product Planning Optimization using Quality Function Deployment, Chapter 5 In AI in Optimal Design & Manufacturing Prentice-Hall Series on Environmental and Intelligent Manufacturing Systems ; V. 3 book, edited by Z. Dong, and

series Editor Mo. Jamshidi, Prentice Hall, Englewood, NJ, ISBN: 0130375403, 1993, pp. 117-152.

57. Information Management for Concurrent Engineering: Research Issues, Concurrent Engineering: Research & Applications, Vol. 1, No. 1, 1993 (with R.S. Morenc and R.M. Rangan), pp. 1-19.

58. On Systems Paradigms, International J. of Systems Automation: Research & Applications, Vol. 2, No.1, (Editorial) pp. i-iii, 1992.

59. Systems Automation - An Introduction, International J. of Systems Automation: Research & Applications, Vol. 1, No. 1, pp. 1-5, 1991.

60. An Integrated System for Optimal Structural Synthesis and Remodeling, Computers and Structures, Elsevier Science Publisher, Vol. 20, No. 5, 1985, pp. 827-839.

61. Novel Concepts for Constraint Treatments and Approximations in Efficient Structural Synthesis, AIAA Journal, Vol. 22, No. 7, July 1984 , pp. 957-966.

62. Optimal Structural Remodeling of Multi-Objective Systems, Computers and Structures, Elsevier Science Ltd, Vol. 18, No. 4, 1984, pp. 619- 628. (with J. F. Emerson)

63. Explicit Constraint Approximation Forms in Structural Optimization - Part 2: Numerical Experiences, Computer Methods in Applied Mechanics and Engineering, Vol. 46, No. 1, 1984, pp. 15-38.

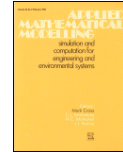

64. Application of Optimization Techniques to Vehicle Design - A Review, Recent Experiences in Multidisciplinary Analysis and Optimization, NASA CP 2327, Part 1, pp. 147-171, NASA Langley Research enter, April 1984, VA., (with C. L. Magee)

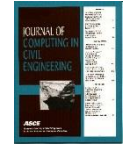

65. Modeling Considerations in Optimum Design of Reinforced Structures, Applied Mathematical Modeling Journal, Elsevier Science Publisher, Vol. 8, No. 3, June 1984, pp. 146-156.

66. An Integrated System Approach to Structural Synthesis, Proceedings of the Eighth conference on Electronic Computation, J. K. Nelson, Editor, New York: ASCE, 0-87262-351-3, 1983, 784 pp., Feb. 1983, pp. 155-171.

67. Novel Concepts for Constraint Treatments and Approximations in Efficient Structural Synthesis, AIAA/ASME/ASCE/AHS 24th Structures, Structural Dynamics and Material Conf., paper no. 83-0940-CP, Part 2, CP 832, AIAA, New York, 1983, pp. 408-421.

68. Approximation, Adaptation and Automation Concepts for Large-scale Structural Optimization, Engineering Optimization Journal, Taylor & Francis Group, Vol. 6, 1983, pp. 129-140.

69. Explicit Constraint Approximation Forms in Structural Optimization - Part 1: Analyses and Projections, Computer Methods in Applied Mechanics and Engineering, Vol. 40, No. 1, Sept. 1983, pp. 1-26.

70. Comment on Potential of Transformation Methods in Optimal Design, AIAA Journal, Vol. 20, No. 11, Nov. 1982, pp. 1630-1631.

71. Optimal Structural Remodeling of Multi-Objective Systems, Computers in Engineering, 1982, ASME Press, Book, Vol. 3, L. E. Hulbert, Editor, ASME, New York, Aug. 1982, pp. 99-108. (with J. F. Emerson)

72. An Improved Variable Penalty Algorithm for Automated Structural Design, Computer Methods in Applied Mechanics and Engineering, Vol. 30, No. 3, June 1982, pp. 245-261.

73. Organization of PARS - A Structural Resizing System, Advances in Engineering Software Journal, Vol. 4, No. 1, Jan. 1982, pp. 9-19. (with R. T. Haftka)

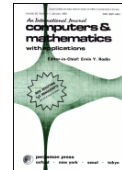

74. AAA Concepts for Large Scale Structural Optimization, Large Engineering System 4, Chapter of a Book, O. P. Malik, et al., Editors, 4th International Symposium on Large Engineering Systems, University. of Calgary, Canada, June 1982, pp. 407- 414.

75. A General Capability of Design Sensitivity for Finite Element Systems ,AIAA/ASME/ASCE 23rd Structures, Structural Dynamics and Material Conference, Part 2, May 1982, CP 824, AIAA, New York, pp. 175-186. (with J. F. Emerson)

76. A Hybrid Variable Penalty Method for Nonlinear Programming, International Journal Computers and Mathematics with Applications, Elsevier Science publisher, Volume 8, No. 6, 1982, pp. 413-424.

77. On the Response of A Timoshenko Beam Under Initial Stress to A Moving Load, International Journal of Engineering Science, , Elsevier Science publisher, Volume 19, No. 5, 1981, pp. 615-628.

78. Some Considerations in Efficient Design of Minimum Weight Structures, Proc. of the 4th International Conference on Vehicle Structural Mechanics, SAE paper no. 811315, Nov. 1981, pp. 141-150.

79. Generic Modeling Procedure for Complex Component Design, Proc. of the 4th Int. Conference on Vehicle Structural Mechanics, P-99, SAE paper no. 811320, Nov. 1981, pp. 195-204. (with H. T. Kulkarni and J. F. Emerson)

80. A Generalized Class of Variable Penalty Methods for Nonlinear Programming, Journal of Optimization Theory and Applications, Kluwer Publishing Corp., Vol. 35, No. 2, Oct. 1981, pp. 159-182.

81. On Stability of A Composite Beam with Initial Stress to Moving Loads, Journal of Applied Mechanics, New York: ASME, Vol. 48, No. 2, June 1981, pp. 368-370.

82. Optimum Structural Design with Plate Bending Elements - A Survey, AIAA Journal, Vol. 19, No. 4, April 1981, pp. 517-522. (with R. T. Haftka)

83. Optimum Design of An Abrasive Disk, Journal of Mechanical Design, ASME, Vol. 103, New York: ASME Press, No. 4, Oct. 1981, pp. 818-822. (with R. T. Haftka and M. S. Bao)

84. Organization of PARS - A Structural Resizing System, Advances in Computer Technology - 1980, Vol. 2, ASME Century 2 Publication, Editor A. Seireg, 1980, pp. 261-273. (with R.T. Haftka)

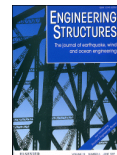

85. A Hybrid Variable Penalty Method for Structural Optimization, Innovative Numerical Analysis for the Engineering Science, Editors R. Shaw, et al., University Press of Virginia, 1980, pp. 583-596.

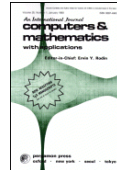

86. IPAC - An Interface Software System for Model Development, Advances in Engineering Software Journal, Vol. 2, No. 1, 1980, pp. 21-28.

87. Optimum Design of the Sides of A Railroad Car, Engineering Structures, 2001 Elsevier Science Ltd, Vol. 2, Oct. 1980, pp. 230-236. (with R. T. Haftka)

88. Variable Penalty Method for Constrained Minimization, International Journal Computers and Mathematics with Applications, Elsevier Science Publisher, Vol. 6, No. 1, 1980, pp. 79-97.

89. Stability of A Timoshenko Beam Under Initial Stress to A Moving Load, Developments in Mechanics, Vol. 10, Proc. of the 16th Midwestern Mechanics Conference, S. C. Sinha, et al., editors, Sept. 1979, pp. 91-96.

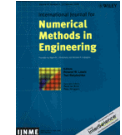

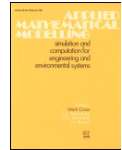

90. IPAC - An Interface FEM Model Generation Package, Proc. of the Seventh Conference on Electronic Computation, ASCE, New York, Aug. 1979, pp. 829-844.

91. Synthesis of Plane Linkages for A Spatially Variable Temperature Environment, Proc. to the Fifth World Congress of Theory of Machines and Mechanisms, Montreal, Canada, July 1979, pp. 21-24. (with R. C. Dix)

92. Application of Computer Techniques in the Analyses of Thermal and Mechanical Wheel Stresses, Track Train Dynamics, Accomplishment in the 70's, Goals for the 80's, R-400, Association of American Railroads, Chicago, Nov. 27- 29, 1979. (with V. K. Garg)
93. Dynamic Models of A Railroad Track System, Applied Mathematical Modeling, Elsevier Science Publisher, Vol. 3, No. 5, Oct. 1979, pp. 359-366. (with V. K. Garg)
94. Minimum Weight Design of the Sides of A Typical 100-Ton High Side Gondola Car, Proc. of Third International Conference on Vehicle Structural Mechanics, P-83, Troy, Michigan, 1979, pp. 11-18. (with R. T. Haftka)
95. PARS - User Manual: Programs for Analysis and Resizing of Complex Structures, NASA CR-159007, NASA Langley Research Center, Hampton, Virginia, April. 1979, (with R. T. Haftka, et al.)
96. Optimal Structural Design with Plate Finite Elements, The Journal of the Structural Div., ASCE, American Society of Civil Engineers, Vol. 105, No. ST11, Proc. Paper 15004, Nov. 1979, pp. 2367-2382. (with R. T. Haftka)
97. A Cubic Extended Interior Penalty Function for Structural Optimization, Int. Journal for Numerical Methods in Engineering, Published by John Wiley & Sons, Ltd , Print ISSN: 0029-5981, Vol. 14, Sept. 1979, pp. 1107-1126. (with R. T. Haftka)
98. Programs for Analysis and Resizing of Structures: PARS, Trends in Computerized Structural Analysis and Synthesis, edited by A. K. Noor, et al., Pergamon Press, London, Nov. 1978, pp. 323-330, Also in :Computers and Structures, Vol. 10, Nos. 1&2 , April 1979, pp. 323- 330. (with R. T. Haftka)
99. Parameter Study of A Railroad Track Support System, The Rail International Journal, International Railway Congress Association, Rue de France 85, B-1070, Bruxelles, Nov. 1978, pp. 834-844. (with V. K. Garg)
100. Test and Analysis of the Dynamic Characteristics of A Flat Car, Track/Train Dynamics and Design, Advanced Techniques, Editors G. J. Moyar, et al., Pergamon Press, New York, 1978, pp. 149-182. (with V. K. Garg, et al.)

*List of Publications Brian Prasad*

101. Structural Dynamic Analysis and Fatigue Life Prediction of A Flat Car, Proc. for 14th Annual Railroad Engineering Conference (R & D and Railroading, 1977), FRA, DOT, March 1978, pp. 234-242. (with V. K. Garg, et al.)

102. Response of A Laminated Beam to A Moving Load, AIAA Journal, Vol. 15, No. 10, Oct. 1977, pp. 1424-1431. (with G. Herrmann)

103. Asymmetric Buckling of Toroidal Shells Under Axial Tension, AIAA Journal, Vol. 12, No. 4, April 1974, pp. 511-515. (with S. K. Radhamohan)

## Brian Prasad

### PUBLICATION LIST (continued)

#### 2. Conference Papers, NASA, & U.S. Government (DOT) Reports:

104. Balancing of Competitiveness Metrics and Measures for Excellence in Manufacturing, Technical Session #: MED-9P, Session Title: Manufacturing Poster Session , Sponsored by: ASME Manufacturing Engineering Division, (w/Suren Dwivedi), 2001 ASME International Mechanical Engineering Congress and Exposition, New York, Nov. 11-16,. 2001.
105. Methodology for Integrating CE Concepts in a Steelwork Construction Project, with C.J. Anumba, A.N. Baldwin, D. Bouchlaghem, B. Prasad, and A.F. Cutting-Decelle, Advances in Concurrent Engineering: CE99, Series Editor: B. Prasad, (with Editors: P.K. Chawdhry, P. Ghodous and V. Vandrope), pp. 479-488, Technomic Publishing Corp., Lancaster, PA, September 1-3, 1999.
106. Life-cycle Measures and Metrics for Gaining Manufacturing Operational Excellence, Proceedings of the 1997 SAE International Automotive Manufacturing Conference and Exhibitions, May 12-15, 1997, Cobo Center, Detroit, MI, USA, SAE Paper 971753, IAM97, SAE, 1997.
107. Seven Enabling Principles of Concurrency and Simultaneity in Concurrent Engineering, Proceedings of the 1st International Conference on Concurrent Engineering in Construction, , Plenary Paper, The Institute of Structural Engineers, London, UK, July 2-4, 1997, pp. 1-12.
108. Towards the use of Knowledge-based Engineering System in a Concurrent Engineering Environment, Proceedings of the Fourth ISPE Concurrent Engineering Research & Applications Conference, Advances in Concurrent Engineering (CE97), Oakland University, Rochester Hills, MI, August 20-22, 1997 (w/ J. Patel, S. Singhal, and A. Vertiz), pp. 379-388 .
109. Concurrent Function Deployment -- An Emerging Alternative to QFD: Conceptual Framework, Proceedings of the Concurrent Engineering Research and Applications Conference, CE'96 Conference, Toronto, Ontario, Canada, Edited by M. Sobolewski, M. Fox, Series Editor: B. Prasad, August 26-28, 1996, Lancaster, PA: Technomic Publishing, pp. 105-112.

## 2. Conference Papers, NASA, & U.S. Government (DOT) Reports: (continued):

110. Use of CE as an Integrator in the Product Development/Delivery Process, Proceedings of the 1996 International Mechanical Engineering Congress & Exposition, The Winter Annual Meeting of ASME, IMEC'96, November 17-22, 1996, held at Atlanta, Georgia.
111. CE Plus CIM Equals IIS: Intelligent Information System, Proceedings of the ASME International Mechanical Engineering Congress, San Francisco, CA, Nov. 12-17, K.H. Law Editor, New York: ASME, 1995.
112. Competitiveness Analysis of Early Product Introduction and Technology Insertion, PED- Vol. 68-1, Manufacturing Science and Engineering, Volume 1, ASME, 1994., pp. 121-132., Symposium on New Product Introduction, Winter Annual Meeting, Chicago, ILL, Nov. 13-18, 1994.
113. A Multi-agent Based Cooperative Framework to Support Concurrent Engineering, Proceedings of the Concurrent Engineering Research & Applications (CERA) '94 Conference, Pittsburgh, PA, pp. 471-480, August 1994. (with G. Bengu and A. Dhar)
114. Strategic Tool Design Using Metal Forming Simulation Techniques, Proceedings of the 9th Int'l Conference on Vehicle Structural Mechanics and Computer Aided Engineering, April 4-6, 1995, SAE, Troy, MI. (with T. Robertson and R. Duggirala)
115. A Knowledge-based Engineering Method to Integrate Metal Forming Process Design and Simulation, Proceedings of the Eighth Annual ASME Engineering Database Symposium, 1994 ASME Computers in Engineering Conference, Minneapolis, Minnesota, Sept. 11-14, 1994. (with T. Robertson and R. Duggirala)
116. A Matrix-based Procedure to Measure the Effectiveness of JIT Implementation, 9th International CAD/CAM, Robotics and Factories of the Future Conference (CARS & FOF '93), New Jersey, August 18-20, 1993, New Jersey. (in Proceeding)
117. CFD: Concurrent Functions Deployment for Building World Class Products Presented at the Towards World Class Manufacturing '93 Conference, International Federation of Information Processing (IFIP) TC5 in cooperation with SME, September 12-16, 1993, Phoenix, Arizona, USA.
118. A Framework to Judiciously Select the Right Concurrent Engineering Tactics, Fourth National Symposium on Concurrent Engineering, CE & CALS '93, Sponsored by Society of Computer Aided Engineering, CERC, June, 1993, Washington, D.C, USA.
119. Total Enterprise Management, 8th International Conference on CAD/CAM, Robotics and Factories of the Future (CARS & FOF '93), St. Petersburg Institute of Informatics and Automation, St. Petersburg, Russia, May 17-20, 1993.
120. DFP Preliminary System Architecture - Technical Requirements Document 6-16-89, Rev. 1.1/ TSD Report # DFP-001, EDS/GM, Michigan, USA.

## **2. Conference Papers, NASA, & U.S. Government (DOT) Reports (continued):**

121. DFP Phase II: Plan for Feasibility Study 6/16/89, Rev. 1.1/ TSD Report # DFP-002, EDS/GM, Michigan, USA.
122. Plan for DFP Prototype DFP-III 7/14/89, Rev. 1.1/TSD Report # DFP-003, EDS/GM, Michigan, USA.
123. Preliminary Investigation on Constraint Management System (CMS) for developing/building DFP-Third Prototype, 8/3/89, Rev. 1.1/TSD Report # DFP-004, EDS/GM, Michigan, USA.
124. Seat System Design/Build Automation Project, Phase II: Requirements Specification, TSD Report # SSAP-IND-001, June 1986, 132 pages.( with M. Fischer, R. Shah and S. Rhodes), EDS/GM, MI.
125. Vacuum Actuator Parametric Design Pilot Project: Generic requirements for Developing A Parametric based Application, TSD Report # VAPD-DR-003, Aug. 1987, 26 pages. (with R. Shah, K. Subramaniam, R. Abraham, D. Dalling and J. Copeland), EDS/GM, USA
126. Feasibility Study for the Computer Integrated Application (CIA) Pilot Project, TSD Report # DDA/CIA-001, Nov. 85, 112 pages. (with R. Gern, E. Fry, M. Magyar, J. Long, C. Bracken, R. Greene, M. Huang, R. Krishnaswami, and F. Webster), EDS/GM, MI.
127. Coil Spring Project- Phase I: Specification Requirements Study, TSD Report # DPR-CSP-001, May 1986, pages 44.( with P. Sengupta, and M. Gonzalez), EDS/GM, Livonia, MI
128. Design Modification Studies of V5 Compression Return Spring, TSD Report # ,Pages 46, February 1986.(with K. Subramaniam and R. Patel ), EDS/GM, Bloomfield Hills, MI.
129. Explicit First Order Approximation based on Geometrical Programming, Presented at the Work in Progress Session, 26th AIAA/ASME/ASCE/AHS SDM Conference, April 15-17, 1985, Orlando, Florida.
130. Generic Modeling and Design Sensitivity - Potential Tools for Automated CAD Process, ASME International Computers in Engineering Conference, Las Vegas, Aug. 12-15, 1984, pp. 556-563. (with S. N. Dwivedi)
131. On the Stability of A Composite Beam with Initial Stress to Moving Load, Paper presented at the Joint ASME/ASCE Mechanics Conference, Univ. of Colorado, Boulder, June 22-24, 1981.
132. An Optimal Remodeling Technique for Stress Concentration Problems, Paper presented at the Sixth International Conference on Fracture, Dec. 4-10, 1984, New Delhi, India.
133. Optimal Structural Remodeling of Multi-objective Systems, Second International Computer Engineering Conference, August 15-19, 1982, Computer Engineering Division, ASME, San Diego, CA.
134. Some Considerations in Efficient Design of Minimum Weight Structures, Fourth Int. Conference on Vehicle Structural Mechanics, SAE, Nov. 18-20, 1981, Detroit, MI.

## **2. Conference Papers, NASA, & U.S. Government (DOT) Reports (continued):**

135. Organization of PARS -A Structural Resizing System, Presented at the International Computer Technology Conference, ASME Emerging Technology Century 2, Aug. 12-21, 1980, San Francisco, CA. (with R. T. Haftka)
136. Structural Design Using A Feasible Direction Optimizer, Technical Report, SR 81-75, June 1981, Ford Motor Company, Dearborn, MI.
137. A Hybrid Variable Penalty Method for Constrained Optimization, Presented at the Tenth Int. Symposium on Mathematical Programming, Montreal, Canada, Aug. 27-31, 1979.
138. GIFWHL: An Interface Package Linking GIFTS with WHEEL Finite Element Programs -User Guide and Technical Documentation, TTD Report No. R-367, Track Train Dynamics Program, FRA, DOT, Washington, DC, May 1979.
139. Application of COMET-X to Problems of Railroad Industry, TTD Report No. R-356, Track Train Dynamics Program, Federal Railroad Administration, Association of American Railroads, DOT, Chicago, Jan. 1979.
140. A Variable Penalty Method for Constrained Minimization, Presented at the Second TICOM International Conference on Computational Methods in Nonlinear Mechanics, The University of Texas, Austin, March 26-29, 1979.
141. Test and Analysis of the Dynamic Characteristics of a Flat Car- Vol. II: Forced Vibration, Dynamic Stress Analysis and Fatigue Life Predictions, Task IX, Track Train Dynamics Report No. R-322, Federal Railroad Administration, DOT, Washington, July 1978.
142. Structural Optimization based on Cubic Extended Penalty Function, Presented at the 8th U.S. Congress of Applied Mechanics Conference, University of California, Los Angeles, June 26-30, 1978. (with R. T. Haftka)
143. Programs for Analysis and Resizing of Structures - PARS, Presented at the Symposium on Future Trends in Computerized Structural Analysis and Synthesis, Washington, DC, Oct. 30- Nov. 1, 1978 ( with R. T. Haftka)
144. Structural Dynamic Analysis and Fatigue Life Prediction of a Flat Car, 14th Annual Railroad Engineering Conference, R. & D. and Railroading, Univ. of Southern Colorado, Pueblo, Oct. 18-20, 1977. (with V. K. Garg and A. Zarembski)
145. Dynamic Characteristics of a Flat Car, Presented at the Conference on Advanced Techniques in Track Train Dynamics and Design, O`Hare Hilton, Chicago, Illinois, Sept. 27-28, 1977. (with V. K. Garg and J. F. Yau)
146. Test and Analysis of the Dynamic Characteristics of a Flat Car, Vol. I: Free Vibration Study, Task IX, Track Train Dynamics Report No. R-280, Federal Railroad Administration, DOT, Washington, DC, Dec. 1977. (with V. K. Garg)
147. Computer Program for Static, Thermal and Stability Analysis of Shells of Revolution, Space Science and Technology Center, Indian Space and Research Organization, Trivandrum, India, Dec. 1974. (with S. K. Radhamohan)
148. Dynamic Analysis of A Beam-Column with Varying End-Rigidity, Proc. of the Conference on the Role of Computers in Structural Analysis, Design & Optimization, Indian Institute of Technology, Madras, India., December 11- 13, 1972.

## PUBLICATION LIST (continued)

### Brian Prasad

#### 3. THESIS/DISSERTATIONS:

149. Automated Design of Structures subject to Stress, Displacement and Temperature Constraints, Ph.D. Thesis, Submitted to the Department of Mechanics, Mechanical and Aerospace Engineering, Illinois Institute of Technology, Chicago, Dec. 1977.
150. Response of a Composite Beam to a Moving Load, Degree of Engineer Thesis, Submitted to the department of Applied Mechanics and the Committee of Graduate Studies, Stanford University., Stanford, Ca., June 1975.
151. Studies of the Blast and Impact Loading on Beams, M.S. Thesis, Submitted to the Department of Mechanical Engineering, Indian Institute of Technology, Kanpur, India, December. 1971.

#### 4. JOURNAL/GUEST EDITOR/SPECIAL ISSUES

152. Life-Cycle Design, Special Issue of Artificial Intelligence for Engineering Design, Analysis and Manufacturing, AIEDAM (ISSN: 0890-0604), Cambridge University Press, Volume 14 - Issue 02 - April 2000, Co-edited by WILLIAM J. MARX, JOHN KUNZ, and BIREN PRASAD, pp. 89-89.

153. Computer Integrated Manufacturing Systems; Special Issue of International Journal of Systems Automations: Research & Applications (SARA), Ablex Publishing Corp., New Jersey, USA, Co-edited with Behnam Pourbabai, Volume 2, No. 3, 1992

154. Automation in Manufacturing Systems; Special Issue of International Journal of Systems Automations: Research & Applications (SARA), Ablex Publishing Corp., New Jersey, USA, Co-edited with Mo. Jamshidi, New Mexico, Volume 2, No. 2, 1992.

155. Language-based Approaches to Design; Special Issue of International Journal of Systems Automations: Research & Applications (SARA), Ablex Publishing Corp., New Jersey, USA, Co-edited with Robert E. Phillips, General Electric, Volume 2, No. 4, 1992

*List of Publications Brian Prasad*

156. Cooperative Agents in Concurrent Engineering; Special Issue of International Journal of Concurrent Engineering: Research & Applications (CERA), Academic Press, London, Co-edited by David Goldstein, North Carolina State University, NC. Vol. 2, No. 2, 1994.

157. Conflict Management in Concurrent Engineering; Special Issue of International Journal of Concurrent Engineering: Research & Applications (CERA), Academic Press, London, Co-edited by Mark Klein, Boeing Computer Services, Seattle, Wa. Vol. 2, No. 3, 1994.

158. Application of AI techniques in Systems Engineering; Special Issue of International Journal of Concurrent Engineering: Research & Applications (CERA), Academic Press, London, Co-edited by C. Tsatsoulis, Kansas State University, Whichita, KS., Vol. 2, No. 4, 1994.

## 5. BOOKS/PUBLICATIONS: (See a Separate Attachment)

## 6. GM/EDS/DELPHI REPORTS (Partial List):

- Prasad, B., Fischer M., Shah R. and Rhodes S., "Seat System Design/Build Automation Project, Phase II: Requirements Specification, Report # SSAP-IND-001, June 1986, 132 pages.
- Prasad, B., et al., "Vacuum Actuator Parametric Design Pilot Project: Generic requirements for Developing A Parametric based Application", Report # VAPD-DR-003, Aug. 1987, 26 pages.
- Prasad, B., et al., "Feasibility Study for the Computer Integrated Application (CIA) Pilot Project", Report # DDA/CIA- 001, Nov. 85, 112 pages.
- Prasad, B., et al., "Coil Spring Project- Phase I: Specification Requirements Study", Report # DPR-CSP-001, May 1986, pages 44.
- Prasad, B., Subramaniam, K and Patel R., "Design Modification Studies of V5 Compression Return Spring", Report # ,Pages 46, February 1986.
- Prasad B., P. Sengupta and K. Subramaniam, "Coil Spring Project -- Specifications Requirements", Applications Development & Support Organization, Technical Systems Development, EDS, May 9, Bloomfield Hills, MI, 1986.
- Prasad, B., and M. Hashem, "Design for Manufacturability - Prototype III: Technical Manual", EDS/TSD/CAE Final Report No. 006, April 1990.
- Prasad B., and Hashem M., "Design for Manufacturability - Prototype III: Users Manual", EDS/TSD/CAE Final Report No. 007, April 1990.
- Prasad B, at. el. "Intelligent Vehicle/Highway Systems (IVHS)", EDS Role & Strategy, White Paper, July 31, 1990, EDS, Technical Systems Development, CAE Division, 1990.
- Prasad B., J. MacDonald and D. Auxier, "Door Systems Methodology Project: Requirements Specifications", Recommendations for Next Phase of Development, GM/CPC/C4 Development, CAE Group, TSD, EDS, June 21, 1991.
- Prasad B., et.al., "Math Based Process for Dies", Die Management Group (DMG), Manufacturing Technology Center, General Motors, December 1992.

## 7. JOURNALS/Managing Editor/Editor-in-Chief:

Concurrent Engineering: Research & Applications (CERA) - International Journal, Academic Press Limited, London, U.K., (Managing Editor) B. Prasad., founded and first launched 1993.

International Journal of Systems Automations: Research & Applications (SARA), Ablex Publishing Corp., New Jersey, USA, (Editor-in-Chief) B. Prasad., founded and launched in 1990, Published 8 Issues, 1991-1992.

## **8. SEMINARS/COURSES/WORKSHOPS:**

Achieving Remarkable Manufacturing Results with Concurrent Engineering: Setting Fundamental, Framework & Architecture Objectives, Course ID # 92024-33, Society of Automotive Engineers, SAE Seminars, December 2-3, 1992, Holiday Inn Southfield, MI, USA.

Concurrent Engineering: Integrated Product Development, Course ID # P92025, Society of Automotive Engineers, SAE Seminars, April 20-21, 1993, Peoria, Illinois, USA.

Concurrent Engineering: Fundamentals, Course ID # 92019, Society of Automotive Engineers, SAE Seminars, (Module A), 1992- Current.

Concurrent Engineering: Frameworks and Architectures, Course ID # 92024, Society of Automotive Engineers, SAE Seminars, (Module C), 1992-Current.

Concurrent Engineering: Decision Support Environments, Course ID # 92026, Society of Automotive Engineers, SAE Seminars, (Module E), 1992-Current.

Concurrent Engineering: Information Modeling, Course ID # 92045, Society of Automotive Engineers, SAE Seminars, (Module B), 1992-Current.

Concurrent Engineering: Applications & Future Trends, Course ID # 92046, Society of Automotive Engineers, SAE Seminars, (Module F), 1992-Current.

Concurrent Engineering: Applications & Future Trends, Course ID # 92046, Society of Automotive Engineers, SAE Seminars, (Module F), 1992-Current.

Introduction to Concurrent Engineering, System Engineering Educational Series, Goddard Space Flight Center, Greenbelt, Maryland, Wednesday, April 30, 1997.

Concurrent Engineering Fundamentals, Basic Course, Goddard Space Flight Center, Greenbelt, Maryland, April 28-30, 1997.

Innovative Techniques in Concurrent Engineering, University of Michigan, Dearborn, A Series of Course offered to Ford Motor Company Managers & Engineers, February 19-22, 1997.
